

Casualty Collection Point

A Multi-Casualty Incident is Declared & roles should reflect the following

First crew- Attendant or by choice	Incident Command
First crew- Driver or default position	Triage Officer
Second Crew or PRU- Attendant	Treatment Officer
Second Crew or PRU- Driver	Transport Officer

A Multi-Casualty Incident scene is fluid and roles change based on number of patients and available resources

Place patients in a linear line & heads facing in one direction

Triage Officer manages patients- reports to Incident Command

Treatment Officer treats patients in the CCP- reports to Triage Officer

Transport Officer manages patients leaving the CCP- reports to Incident Command
